**Scottsdale's #1 Choice in Dentistry Wants You!**

Clean teeth are essential to your oral health. In addition to flossing and brushing your teeth at home, it's necessary to see a dentist twice a year to reinforce the hard work you put in! That's why our office recommends a professional cleaning.

**During A Professional Cleaning We:**

- Remove plaque and tartar deposits that have built up over time
- Recommend tips to improve your at-home routine
- Polish your teeth making it harder for bacteria to stick to them
- **and more...**

We are offering an extremely affordable first cleaning to all of our new patients!
